

# DIRTY BROWN VISUALS

Dirty Brown Visuals is a Netherlands based A/V-art and motion graphics studio specialised in VJ-ing and video content creation and managing. Starting out around 2000 with our first animations and live visuals we have continued to update our skills, style and mentality. Our aim is to provide the best (live) visuals possible with our ten years of experience in branding through motion graphics, content creation, stage concepts, no-nonsense productions and front-to-back video operating knowhow.

Being well known for delivering livid, colourful and hyperdynamic visuals around the globe, we can match the concept or atmosphere of any possible event with our database of thousands and thousands of our in-house created animations, loops and custom created visuals.

Because we provide content for many different events and purposes the style and look we use greatly varies. We have visualised all kinds of events from retro 80-90's music to live acts, trance, house, techno and even the really hard stuff rocking crowds varying from 60 up until 160.000 visitors.

Over the past ten years we have worked in A/V-art, animation, visuals and motion graphics for all possible purposes and with many different cliënts. Sometimes we work solo, sometimes in collaborations, but we always work with our cliënts best interest at heart to get the best possible result. Below is a small selection of who we have worked with:
